JEEVAN SHRESTHA

shresthajeevan880@gmail.com | www.linkedin.com/in/shrestha-jeevan | (206) 291-0589

TECHNICAL SKILLS

- **Languages:** Java 17/21, Python, TypeScript, JavaScript/HTML5/CSS3, SQL
- **Libraries/Frameworks/Database:** Spring Boot, Spring Cloud, Hibernate, React.js, Angular, Node.js, Oracle, MySQL, Neo4j, Redis
- **Tools/Technologies:** AWS (EC2, S3), Git, Docker, Kubernetes, CI/CD, Kafka, Openshift, Azure, Postman, GitHub CoPilot

EXPERIENCE

Software Engineer — Apr 2026 – Present

Globant

Client: Finastra

- Modernize legacy Java applications into modular Spring Boot services using Java 21, JPA/Hibernate, and Oracle.
- Enhance code generation using Neo4j, JavaParser, FreeMarker, and YAML rules; develop OpenAPI-driven REST APIs and persistence components for lending modules.
- Improve database mappings and regression testing; investigate OAuth2/JWT authorization, CI/CD quality gates, and Azure AKS deployment issues.

Client: Bank of America

- Developed reusable Java and Spring Boot components and Kafka producer/consumer integrations for payment-platform modernization.
- Implemented messaging reliability patterns, including retries, backoff, idempotency, and dead-letter handling; supported secure Kafka connectivity across AWS and OpenShift environments.

Software Engineer — Sep 2025 – Present

MitraIT Inc.

- Developed and enhanced customer-facing full-stack applications with React, Node.js, Spring, Hibernate, and PostgreSQL, improving performance by 30%.
- Built RESTful APIs, optimized database queries, and implemented unit testing, reducing post-release bugs by 25% and improving data retrieval speed by 25%.
- Leveraged AI coding tools like Claude and collaborated in Agile sprints, delivering features with a 95% sprint completion rate.

Graduate Research Assistant — Aug 2024 – May 2025

Southeast Missouri State University

- Designed threat modeling exercises and security labs for 500+ students using OWASP tools and SIEM platforms.
- Created research-backed quizzes and labs to strengthen vulnerability analysis, secure coding, and risk assessment skills.

Software Engineer — June 2022 – July 2023

Docsumo

- Engineered and maintained **scalable web and backend solutions** with **Java, React, and Node.js**, boosting performance and reliability of document management workflows.
- Implemented CI/CD pipelines and automated testing, reducing integration issues by 35% and accelerating deployment cycles.
- Improved user satisfaction by 25% through enhancements to checkout and user management modules in collaboration with cross-functional teams.
- Resolved production issues through effective debugging, monitoring, and optimization, maintaining **99.9% uptime**.

EDUCATION

Southeast Missouri State University — May 2025

Master of Science in Applied Computer Science — ***GPA: 3.9/4.0**, Cape Girardeau, MO*

- **Relevant Courses:** Data Structures and Algorithms, Advanced AI, Object-Oriented Design, Distributed Cloud Computing, Machine Learning, Advanced Programming Languages

Islington College — May 2022

Bachelor of Science in Computer Science — *Kathmandu, Nepal*
